*In this business, satisfying customers requires a lot more than just offering great spices. And at Baron, it's what we do with those spices that sets us apart. Baron Spices & Seasonings has a rich **history** as a custom manufacturer and blender of spices, seasonings, herbs, flavors and extracts - but what makes us most is the solid reputation we've built for quality and innovation. Our process starts with strict specifications and careful sampling of all ingredients, so only the best and purest are used. Then — in Baron's new state-of-the-art, temperature/ humidity-controlled production facility — our rigid Quality Assurance Program (using HACCP guidelines) continues throughout all milling, mixing, blending and packaging. This totally sanitary, dust-inhibiting environment is also where our gifted Food Technologists draw upon years of applied culinary knowledge and creative thinking to custom-formulate distinctive flavors and exclusive blends to suit any market or need.*

Simply put, we are relentless about quality. You'll taste the Sevioli difference in all these ways: Our ingredients are truly superior. We use imported Italian Pecorino Romano and whole milk Impastata Ricotta with the highest butterfat content for creamier taste. We use only the finest semolina and search the world for the best spices, herbs and other premium ingredients that go into creating our delicious filled pastas. Our equipment is imported from Italy, the "pasta capital of the world". The texture of our pasta is in the best Italian tradition...rolled very thin and tender, yet with the perfect "al dente" texture. Our fillings are unusually generous in ratio to the pasta, so the taste of the ingredients sings in the mouth. Cut into our ravioli, and you'll see luscious chunks of meat, portabella mushrooms or lobster and shrimp. We never use empty fillers like potato starch. We use only authentic ingredients our grandmothers used when making pasta from scratch.
